Final Drive & Wet Brake

Brake Supply offers remanufactured Final Drives and Wet Brakes designed to provide maximum reliability and performance for heavy-duty equipment. Our rebuild process ensures that every unit meets or exceeds OEM specifications, offering high durability and operational efficiency. We supply final drives and wet brakes for loaders, haul trucks, and dozers from the most recognized brands, including Caterpillar, Komatsu, and VME/Euclid. Brake Supply's remanufactured units are backed by our commitment to quality, providing fast delivery, competitive pricing, and excellent service. By choosing Brake Supply, you get a ready-to-install unit, ensuring minimal downtime and maximum productivity for your equipment.

- Remanufactured Final Drives and Wet Brakes for top equipment brands including Caterpillar, Komatsu, and VME/Euclid.
- Units meet or exceed OEM specifications for performance, durability, and reliability in heavy-duty applications.
- Ready-to-install units available with fast, same-day shipping, reducing downtime for your operations.
- Competitive pricing and expert service to deliver value and productivity for your equipment fleet.

Final Drives and Wet Brakes Overview

Brake Supply provides high-quality remanufactured Final Drives and Wet Brakes, engineered to deliver superior performance and long-lasting durability. These components are essential for heavy equipment like loaders, haul trucks, and dozers. Our products are meticulously remanufactured to ensure they meet or exceed OEM standards, offering an alternative to traditional OEM repairs. Brake Supply stocks a wide range of part numbers for immediate availability, ensuring that your equipment stays running with minimal downtime. Our extensive exchange inventory and quick delivery services make us the go-to choice for reliable, high-performance final drives and wet brakes.
