WHY HEPI?

HEPI is a global leader in providing remanufactured parts, components, and comprehensive solutions for the mining and heavy equipment industries. Our commitment to customer success is rooted in our three pillars of value, guiding everything we do:

**Customer-Centric
Excellence**

**Innovative Precision
Unmatched Quality**

**Optimized Total Cost
of Ownership**

OUR SOLUTIONS

MOBILE MINING SOLUTIONS

Complete Drivetrain Solutions for Mining Equipment

FIXED PLANT PROCESSING

Crusher Liner Development, Parts, and Wear Products

COOLING SOLUTIONS

Cooling System Applications, Remanufacturing Services, and Engineering Innovation

DOM-EX

Used and Rebuilt Component, Parts and Services for Mining Equipment

**40+
Multi-Use
Facilities
Across Seven
Countries, Six
Engineering
Centers**

CUSTOM CRUSHER LINERS, SPARE AND WEAR PARTS

HEPI

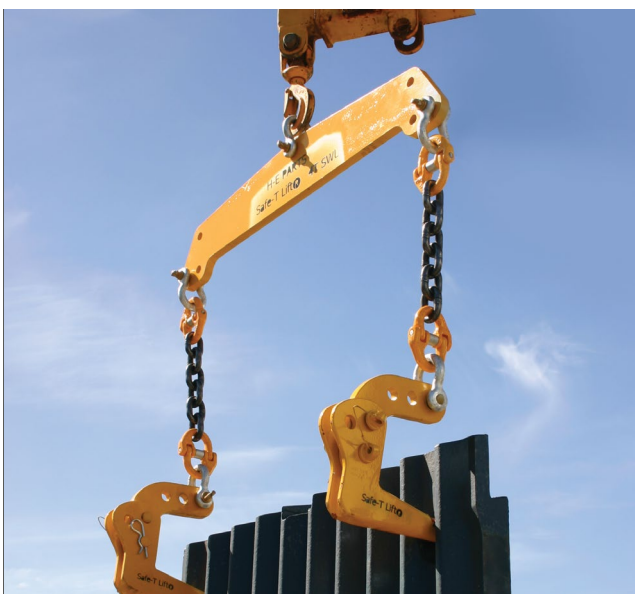

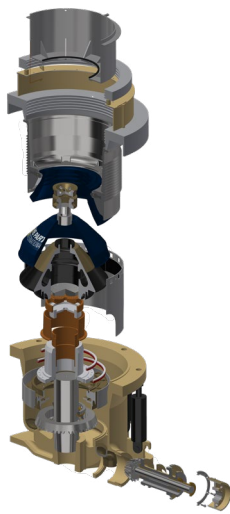

Crushing Solutions

HEPI provides complete crushing solutions and services for the mining, quarrying, and mineral processing industries globally. We supply components for cone, jaw, gyratory, and impact crushers. Our liner range includes MnElite™, MnPremium™, and MnStandard™, with wear solutions such as LinerSafe™ liners, safety lifters and crusher wear liner packages.

Our expert engineering team delivers custom liner designs to extend wear life and boost performance, supported by proprietary software for wear analysis and optimization. In addition, we offer on-site and off-site services and repair options.

These solutions are backed by our East and West Coast Australian facilities, including our 25,000 SQM crushing facility in Wattleup, WA—purpose-built for efficient, large-scale production with 100-tonne crange capacity for heavy mobile equipment and parts to service your crushing needs throughout Australia and the globe.

SAFETY AT OUR CORE

Safe-T-Lift™ System: Our patented Safe-T-Lift™ system ensures the safe handling and installation of jaw crusher liners, significantly reducing risks associated with this traditionally hazardous task.

Lock Lift™ Device: This patented device enhances safety by removing the need to weld on lifting lugs on manganese liners, offering a more secure method for lifting and handling of our liners.

HEPI

Mining Solutions

COMPREHENSIVE MOBILE MINING SOLUTIONS

MAXIMIZE UPTIME WITH SERVICE EXCHANGE

Our service exchange program minimizes downtime by providing immediate access to high-quality, remanufactured components globally. With tens of millions of dollars invested in core inventory, we ensure customers get the parts they need, when they need them. We also offer flexible repair and return options, keeping fleets operating with minimal disruption.

HEPI provides complete life cycle support for mobile mining equipment, delivering reliable solutions that keep operations running efficiently. Our brand-agnostic expertise allows us to support all major OEMs, with a specialized focus on Komatsu and CAT fleets. We also support dozers, wheel loaders, and graders, ensuring broad coverage for mining operations worldwide.

With 40+ multi-use facilities across Australia, Chile, Peru, Africa, Canada and the USA, including our flagship Brake Supply facility in Indiana, we offer global repair services and high-volume remanufacturing. Our comprehensive solutions cover: final drives & wet brakes, hydraulic cylinders, diesel engines, cooling solutions, differentials, transmissions & torque converters, electric wheel motors, front and rear suspensions, front corners, thousands of OEM and distributed parts and more!

COMPLETE DRIVETRAIN SOLUTIONS

- Remanufacturing, Repairs and Maintenance
- Service Exchange
- Wheel Groups & Front Corner Systems
- Front and Rear Suspension
- Transmissions, Torque Converters, Differentials
- Pin Kits and Enhancements
- Diesel Engines
- Spare and Distributed Parts

HEAVY EQUIPMENT

HYDRAULIC CYLINDERS

With decades of expertise, Brake Supply rebuilds 5,000–6,000 hydraulic cylinders annually, ensuring a successful rebuild every time. We disassemble, inspect, and rebuild each cylinder to meet or exceed OEM standards. Advanced CNC-honing, computerized pressure testing, and precision craftsmanship deliver peak performance and durability.

FINAL DRIVES & WET BRAKES

We deliver high-quality remanufactured final drives and wet brakes for loaders, haul trucks, and dozers. Built for superior performance and durability, our components meet or exceed OEM standards—offering a reliable alternative to OEM repairs. With a large inventory ready to ship, we help keep your equipment running with minimal downtime.

TRANSMISSIONS & TORQUE CONVERTERS

Our transmission and torque converter rebuild services provide a faster, more cost-effective alternative to traditional OEM options. Our Evansville, Indiana facility features an advanced AIDCO 900 dynamometer—one of the few in the industry outside of OEMs—capable of testing even the largest transmissions, such as those used in CAT 793 haul trucks.

COMPLETE ROLLOUTS

Brake Supply provides complete axle assemblies, allowing you to make better use of your mechanics' hours. These assemblies are only available through Brake Supply and are not offered by your local heavy equipment dealer.

HEPI

Cooling Solutions

HIGH-QUALITY COOLING SYSTEMS

HEPI Cooling products are designed to prevent costly machine breakdowns caused by ineffective or inappropriate cooling systems. By delivering high-quality, application-specific solutions, we help customers achieve lower maintenance costs, increased uptime, and improved productivity. Our systems ensure longer machine life expectancy, enhanced efficiency, and reduced fuel consumption.

We service and support radiators and cooling systems for customers around the world, with a strong presence in Australia, North America, and South America. Whether it's a Mesabi-style system or a fully customized design, our expert team leverages in-house software and modeling to engineer innovative, durable solutions that perform in the most demanding environments.

THE HEPI COOLING DIFFERENCE

- High-quality cooling systems that reduce overheating and extend machine life expectancy
- Improved machine performance through increased efficiency and reduced fuel consumption
- Comprehensive service capabilities, including recoring, overhauls, and repairs
- Rigorous testing ensures reliability, including submerged test bath air pressurization and complete traceability

TRUSTED WORLDWIDE SINCE 1982

HEPI

DOM-EX

With a legacy spanning 40+ years, Dom-Ex has grown from its roots in Hibbing, Minnesota into a global provider of cost-effective solutions for the mining and heavy equipment industry. Our operations reach key international mining hubs—including North America, Australia and South America—enabling us to support clients across six continents.

Our global inventory of 100,000+ line items ranks among the industry's most extensive. From engines and transmissions to final drives, suspensions, differentials, and track frames, we support haul trucks, dozers, graders, loaders, hydraulic shovels, and more—across a wide range of mining applications.

One of Dom-Ex's unique strengths is our ability to purchase used equipment that's no longer financially viable for your operation. If you have assets to offload, our team is ready to buy—helping you recover value while we extend the life of your equipment through reuse and redistribution.

By distributing components strategically in high-demand regions, we reduce lead times and maximize uptime. Our Hibbing headquarters anchors our capabilities: a fully equipped service and rebuild facility with advanced tooling, diagnostics, and expert technicians trained to handle the largest mobile mining assets.

Dom-Ex is more than a supplier—we're a global partner providing efficiency, productivity, and performance.

WHAT WE OFFER:

- **Good Used & Rebuilt** Parts and components from major OEMs like CAT, Komatsu, GE & Hitachi
- **Global Equipment Sourcing & Liquidation** across continents
- **Outright product offering** with no core to return
- **Rebuild & Repair Services** for large mobile mining components
- **Worldwide Relocation Services** including disassembly, transport & reassembly
- **Inventory Liquidation** including complete equipment

EQUIPMENT WE COMMONLY DISMANTLE

TRUCKS: 797B (1), 793F (9), 793D (5), 793C (10), 793B (2), 789C (22), 789B (8), 785C (15), 785B (6), 777F (3), 830E AC (4), 830E DC (8), 930E-4 (1), 930E-3 (1), 930E-2 (3), (1) HD785-7 (6), MT4400 AC (10)

DOZERS: D11T (2), D11R (4), D10T (9), D10R (3), D9T (1)

LOADERS: 994H (1), 993K (4), 992G/854G (4), 988H, 980H

GRADERS: 24M (3), 24H (2), 16M (4), 16H (1)

SHOVELS: 6060, RH170B/6040, PC5500-6, PC2000-8, EX2500-6 (2)
